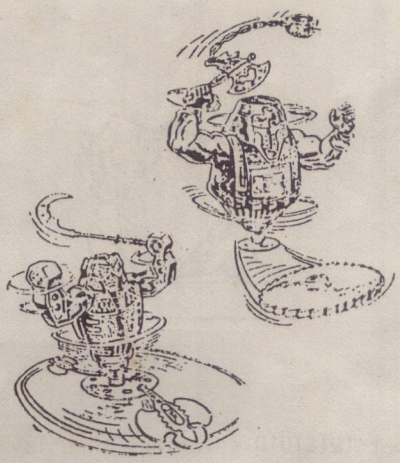
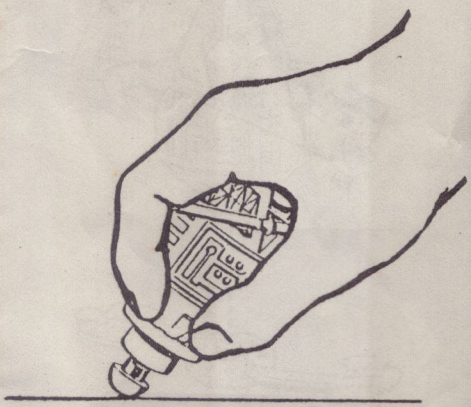
ROTAR AND TWISTOID INSTRUCTIONS



3024–0920

HOW TO START HIM SPINNING

Select a surface for good traction. DO NOT PUT TOY NEAR HAIR.



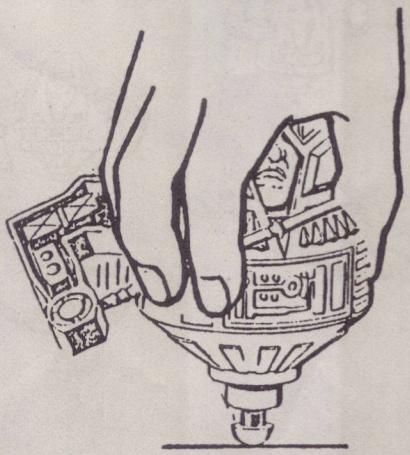
A linoleum tile or cardboard surface (from the back of a notebook pad) works well to get it spinning. Do not use on wooden furniture or chairs.

(1)

Roll tip along floor as shown. Start it SLOWLY and increase its speed until its spinning very fast. Use muliple strokes for super speed.

(2)

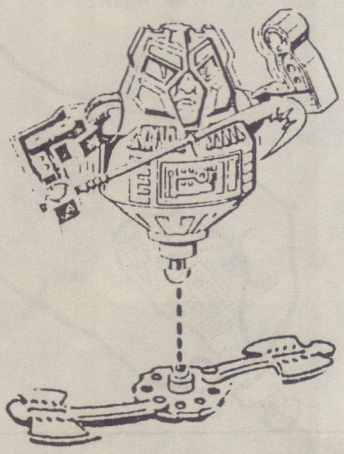
You will get the best action when he is spinning very, very fast.



Set it on its tip and watch it spin. You may want to practice starting it several times before using the accessories.

(3)

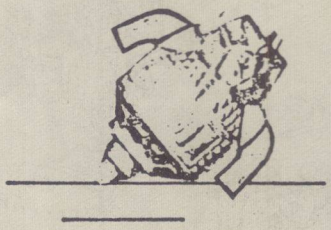
TWISTOID ON HATCHET-WHIPPER



Get TWISTOID spinning, hold it steadily upright, then position it easily into the HATCHET-WHIPPER.

4

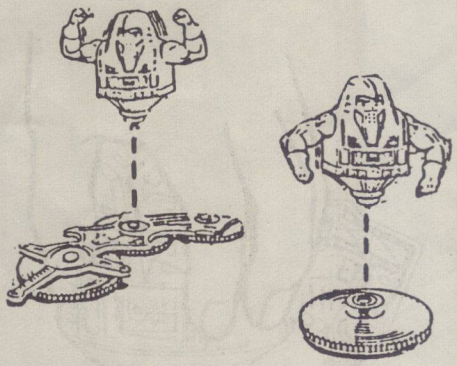
TWISTOID STANDS UP AUTOMATICALLY



Get TWISTOID spinning, then lay it down with its shoulder against the surface. It will lift up into a spin.

5

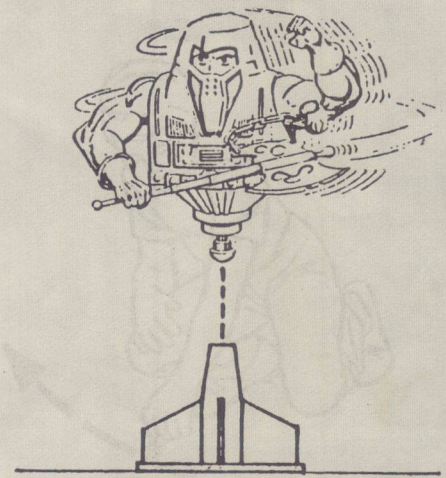
ROTAR ON ROTO-POD



Get ROTAR spinning, hold it steadily upright, then center it into any of the 3 gear holes. The gears can be removed for use separate from his sword.

6

USE OF PEDESTAL



Once you have learned to spin it to SUPER SPEEDS, place it on the pedestal for stationary action.
